LinkedIn | GitHub | Portfolio

SUMMARY

Aspiring Data Analyst and B.E. student in Artificial Intelligence & Data Science with internship experience in Data Analytics, Machine Learning, Deep Learning, AI, and Business Intelligence. Proficient in Python, SQL, Power BI, Excel, EDA, predictive analytics, and data visualization. Passionate about transforming data into actionable business insights and building AI-driven analytical solutions.

EXPERIENCE

Data Science & Machine Learning Intern (On-Site)

Jun 2026 – Aug 2026

Globe Creater Services LLP

Kothrud, Pune

- Cleaned and preprocessed structured datasets using Python, Pandas, and NumPy for machine learning and analysis.
- Performed Exploratory Data Analysis (EDA) using Pandas and Matplotlib to identify trends and business insights.
- Developed regression and classification models using Scikit-learn for predictive analytics.
- Created data visualizations using Matplotlib to communicate analytical findings.
- Collaborated with mentors to optimize machine learning models and support data-driven decisions.

Data Science Intern (Hybrid)

Jan 2026 – Apr 2026

SparkIIT

Hybrid

- Completed industry-oriented training in Python, Data Analysis, and Machine Learning through hands-on projects and practical assignments.
- Performed data preprocessing, feature engineering, and Exploratory Data Analysis (EDA) on real-world datasets using Pandas and NumPy.
- Built and evaluated regression and classification models using Scikit-learn for prediction and data-driven decision-making.
- Applied Pandas, NumPy, and Matplotlib for data cleaning, transformation, visualization, and analytical reporting.
- Completed project-based assignments under mentor guidance, strengthening analytical thinking and problem-solving skills.

PROJECTS

IntelliInsight AI Platform | *React, FastAPI, Python, PostgreSQL, RAG, LLM*

2026 | GitHub

- Developed an AI-powered decision intelligence platform using RAG and LLMs for natural language business analytics.
- Integrated dashboards, forecasting, REST APIs, semantic search, and automated insights for data-driven decision-making.

AI Calling Platform | *Python, FastAPI, LiveKit, Groq, Deepgram, RAG*

2026 | GitHub

- Built a real-time AI voice assistant using Groq LLM, Deepgram Speech-to-Text, and LiveKit.
- Implemented Retrieval-Augmented Generation (RAG), REST APIs, and intelligent conversational workflows for enterprise automation.

Blinkit Sales Analysis Dashboard | *Power BI, DAX, Excel*

2025 | GitHub

- Designed an interactive Power BI dashboard to analyze sales, revenue, customer trends, and product performance.
- Created KPIs, DAX measures, slicers, and dynamic visualizations to support business decision-making.

Uber Trip Analysis Dashboard | *Power BI, DAX, Excel*

2025 | GitHub

- Built an interactive dashboard to analyze booking trends, trip demand, revenue, and operational performance.
- Developed KPIs, DAX measures, drill-through reports, and interactive filters for business analysis.

Brain Tumor Detection | *Python, TensorFlow, Keras, OpenCV*

2025 | GitHub

- Developed a CNN-based deep learning model for brain tumor classification from MRI images.
- Compared optimization algorithms to improve classification accuracy and overall model performance.

Secure CRUD Application | *Python, Streamlit, SQLite*

2025 | GitHub

- Developed a secure CRUD web application using parameterized SQL queries to prevent SQL injection attacks.
- Built an interactive interface for efficient data management, validation, and visualization.

TECHNICAL SKILLS

Programming Languages: Python, SQL (Joins, Window Functions, CTEs)

Data Analytics: ETL, Data Cleaning, EDA, Data Wrangling, Feature Engineering, Statistical Analysis, Data Visualization

Machine Learning: Regression, Classification, Clustering, Model Evaluation, Scikit-learn

Deep Learning & AI: CNN, ANN, Transformers, BERT, BART, LLMs, RAG, Embeddings, TF-IDF, Cosine Similarity, Semantic Search, Whisper

Business Intelligence: Power BI, DAX, KPI Development, Dashboard Design, Data Visualization, MS Excel

Databases: MySQL, PostgreSQL, MongoDB, SQLite, ChromaDB

Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab

Frameworks: FastAPI, Flask, Django, Streamlit

CERTIFICATIONS & HACKATHONS

- **Honeywell AI & Machine Learning Program**
- **IBM SkillsBuild:** Getting Started with Artificial Intelligence, Mastering the Art of Prompting, Large Language Model Basics
- **Data Analytics Job Simulation** – Deloitte
- **Power BI Workshop** – OfficeMaster
- **Smart India Hackathon 2024 – Participant:** Developed a Drug Inventory & Supply Chain Tracking System using Python and Streamlit.
- **Smart India Hackathon 2025 – Participant:** Developed a Digital Carbon Footprint Tracker using Power BI and SQL dashboards.

EDUCATION

Bachelor of Engineering (B.E.) in Artificial Intelligence & Data Science

Expected Graduation: 2027

Marathwada Mitramandal's Institute of Technology, SPPU Pune University

CGPA: 9.71/10
